

MSK interest group

REFERRER INFORMATION SHEET

Our MSK service

Benson Radiology has a team of radiologists with extensive experience in reporting all forms of musculoskeletal (MSK) imaging.

Our team not only has a keen practical interest in MSK imaging, but also have an academic interest including published articles and active participation in MSK research.

We provide a range of high end MSK procedures including:

- > corticosteroid injections
- > autologous blood injections
- > platelet rich plasma injections
- > radiofrequency denervation
- > ultrasound guided pulley release
- > foreign body removal

Our radiologists work closely with Benson Radiology's team of dedicated staff, using state-of-the-art imaging equipment including the state's most advanced fleet of wide bore MRI scanners.

Sunil Gupta
BMBS (Flinders)
FRANZCR, FAWCH,
nuclear medicine
physician

Dr Gupta is a member of the SA Sports Medicine Association, the Australasian Musculoskeletal Imaging Group and the Radiological Society of North America.

He holds a senior staff specialist position at the Adelaide Women's & Children's Hospital (paediatric and nuclear medicine divisions) and is a senior lecturer at the University of Adelaide.

He also sits on the editorial committee of Imaging Guidelines RANZCR and is a college examiner in paediatric radiology.

Dr Gupta has been published in journals such as the *Journal of Medical Imaging and Radiation Oncology*.

Thi Nguyen
MBBS (Adelaide)
FRANZCR

Dr Nguyen completed advanced training in MRI at Flinders Medical Centre, followed by a musculoskeletal imaging fellowship at the University of Alberta, Canada.

His interests include MSK ultrasound and MRI, imaging of elite athletes, MSK oncology and pain intervention techniques.

He is a member of the SA Sports Medicine Association and the Australasian Musculoskeletal Imaging Group and is a Clinical Lecturer at the University of Adelaide.

He has also published articles in publications such as the *Journal of Spine Surgery* and *Osteoarthritis and Cartilage*.

Michael Reid
BMBS (Hons), BSC,
FRANZCR, FRCR

Dr Reid completed an advanced traineeship in body imaging (MRI) at the Royal Adelaide Hospital (RAH) in 2013.

He is a staff specialist at the RAH, a member of the Australasian Musculoskeletal Imaging Group and also holds the position of Clinical Lecturer, Discipline of Surgical Specialities at the University of Adelaide.

Dr Reid is a Fellow of both the Royal Australian and New Zealand College of Radiologists, and the Royal College of Radiology.

Nimah Rezaian
MBBS (Adelaide),
FRANZCR

Dr Rezaian completed his advanced training in MRI body imaging and neuroradiology at Flinders Medical Centre.

He currently holds the position of Staff Specialist at Repatriation General Hospital.

Dr Rezaian has authored published articles in journals such as *Journal of Medical Imaging and Radiation Oncology*.

MSK interest group

REFERRER INFORMATION SHEET

Pouria Rezaian
MBBS (Adelaide)
FRANZCR

Dr Rezaian gained his fellowship in MRI and interventional radiology at Flinders Medical Centre.

He currently holds a Staff Specialist position at the Royal Adelaide Hospital and is an interventional radiologist at The Queen Elizabeth Hospital.

Dr Rezaian is also a Clinical Lecturer at the University of Adelaide and has authored a scientific poster presentation for the Australasian Musculoskeletal Imaging Group.

Matt Sampson
MBBS (Adelaide)
FRANZCR

Dr Sampson has completed a fellowship in musculoskeletal imaging at the Sports Surgery Clinic, Dublin, Ireland. His interests include musculoskeletal/sports injury MRI and image guided musculoskeletal procedures.

He currently holds a staff specialist position at the Repatriation General Hospital, is a member of the SA Sports Medicine Association and Australasian Musculoskeletal Imaging Group.

He is a Senior Lecturer at Flinders University and has authored papers in journals such as the *American Journal of Roentgenology* and *Skeletal Radiology*.

Ben White
MBBS (Adelaide)
FRANZCR

Dr White completed his MRI fellowship at St Thomas' Hospital, London and the Kent and Sussex Hospital, Tunbridge Wells.

He has been actively involved in the diagnosis and treatment of elite and non-elite athletes.

His MSK interests include MRI and ultrasound and CT guided therapeutic interventions (including bone biopsies).

He holds Senior Lecturer status at Flinders University Medical School and has been published in journals including *Journal of Medical Imaging and Radiation Oncology*.

Edward Wang
MBBS (Melbourne)
FRANZCR

Dr Edward Wang commenced with Benson Radiology in March 2019.

He has undertaken his radiology training in South Australia and worked across various hospitals including Flinders Medical Centre, the Royal Adelaide Hospital and The Queen Elizabeth Hospital.

He currently holds the position of Staff Specialist at Flinders Medical Centre.

Dr Wang has authored published articles in journals such as *Skeletal Radiology* and *Journal of Medical Radiation Sciences*.
